### GOVERNMENT OF INDIA.

#### LEGISLATIVE ASSEMBLY DEPARTMENT.

The following Report of the Select Committee on the Bill to provide for the inspection and collection of an income duty on matches was presented to the Legislative Assembly on the 14th April 1924—

We, the undersigned, members of the Select Committee, to which the Bill was referred, have considered the Bill and have now the honour to submit the Report, with the Bill as amended by us, to the Assembly.

S. Sir Alan Freeman, Secretary to the Government of India in the Finance Department, and Mr. A. M. Lloyd, Member, Council Board of Revenue, attended the meetings of the Select Committee and assisted us with information. We have also had the advantage of hearing the evidence of representatives of the match industry engaged in the match industry in India.

Clause (F).—The draft is re-enacted on the changes made in clause 6. We have also added a penalty of imprisonment for the officers of leaving unsecured matches.

Clause 22.—There draft is re-enacted on the changes made in clause 6.

Clause 26.—Most of the changes are consequential. The change in clause 26 of sub-clause (1) nothing preventing is to make for inspection as well as storage, which that in clause 26 gives the required power to limit the number of matches contained in a box or packet in light.

New Clause 27.—This clause is inserted for the purpose explained in paragraph 3 above.

Old Clause 29 (now Clause 34).—In consequence of the change made in the rate of duty proposed by the Bill a change has been made here to bring the excise duty which constitutes the premium offered in the Indian industry into accord with the duty now proposed.

6. We want point out in connection with this Bill that there is a very real danger that the amount expected to accrue from the duty proposed might be seriously affected if as a result of the Bill the use of American lighters developed so as to become a serious rival to matches. Both lighters are at present already exported from abroad; but the possibility of the exportation of local lighters is not to be ignored. We suggested the excise duty on matches it seems to be necessary that they should be subjected to a suitable excise duty, and that imported lighters should be subjected to a corresponding reduction of the excise duty. We are advised that proposals to this effect would be outside the scope of the present Bill. We hope that a Bill embodying the proposals just stated will be introduced into the Legislature at once.

7. The Bill was published in the Gazette of India, dated the 15th March 1934.

8. We think that the Bill has not been so ill-limed as to require re-enactment and we recommend that it be passed as now amended.

#### MINUTE OF DISSENT

We desire to draw attention to the Statement of Objects and Reasons. All the States having match factories within their territory have not yet consented to enter into an agreement with Government to pay into a common pool the proceeds of the excise duty which they collect from their States. Such States that do enter into an agreement are to receive back from the common pool an amount calculated on a population basis. We do not believe that to be a very equitable arrangement, as we consider that, due to the difference in the standards of living in British India and in Indian States, the consumption of matches in British India must be greater than the ratio of the population.

\* Subject to a minute of dissent.

States in India which have no match factories while their territory are also going to be allowed to enter into agreements with Government whereby they are to get their proportionate share of the excise duty from the very start, or even for an indefinite period that they will levy excise duty when a match factory or factories are constructed in their States. The result will be that every Indian State, big or small, will have the privilege of sharing in the excise duty. There is, therefore, to be collected in all parts of the Federation, not considered to be one of the least valuable sources of revenue for the future Federal Government. If all States are to be given the privilege of sharing the revenue immediately, it will be most difficult in the future to get them to give it up for the benefit of the Federal Government. They will get accustomed to count upon the source of revenue for their own use and we are afraid that this precedent will be a source of considerable embarrassment to the future Federal Government. We object to the principle of allowing Indian States to share in the source of revenue. We would prefer to see it confined to British India and stop the export of matches from all Indian States into British India. We realize that there will be considerable difficulty in doing so effectively in some parts of India, but we believe that Government should make all States to operate with the Customs Department in such a manner. Indian States have no choice in Government for assistance in such matters and in many directions. We are of opinion that Government are in a position to negotiate with Indian States that the revenue of British India should be safeguarded against encroachments of all kinds.

In pursuance of the provisions of sub-section (3) of section 81 of the Government of India Act, the following Act of the Local Legislature of Madras having been assented to by the Governor on the 15th March 1934 and by the Governor-General on the 17th April 1934, is hereby published for general information:—

#### ACT No. V of 1934.

*An Act to provide for the preservation in efficient condition of tanks belonging to landholders which are used as part of the Periyar system of irrigation in the Presidency of Madras.*

WHEREAS it is expedient to provide for the preservation in efficient condition of tanks belonging to landholders which are used by the Government as part

of the Periyar system of irrigation in the Presidency of Madras.

AND WHEREAS the previous sanction of the Governor-General has been obtained to the passing of this Act;

It is hereby enacted as follows:—

Short title.

Extent.

Interpretation.

1. This Act may be called the Periyar Irrigation Tanks (Preservation) Act, 1934.

2. It extends to the whole of the Madras district

3. In this Act, unless there is something repugnant in the subject or context,

(a) 'Collector' means the Collector of the Madras district;

(b) 'estate' and 'landholder' have the same meaning as in the Madras Estates Land Act, 1908; and

(c) 'tank' means any tank situated wholly or partly in an estate and used by the Government as part of the Periyar system of irrigation.

Decision of disputes.

Provisionary order for repair of tank and survey of such order on each holding.

4. If any question arises as to whether any area is or forms part of a tank, it shall be decided by the Collector whose decision shall be final.

5. Whenever it appears to the Collector that any tank is in a state of disrepair, he may pass a preliminary order specifying the measures which in his opinion are necessary for its repair and restoration to efficiency and cause plans and estimates of the cost of such measures to be prepared. The Collector shall send copies of such preliminary order, plans and estimates to the landholder of the estate in which the tank is situated, or if the tank is situated in more than one estate, to each landholder concerned, together with a notice in writing requiring him to appear before the Collector on a date to be specified in the notice, not being less than sixty days after the date of the notice, and show cause why the said order should not be confirmed.

The Collector shall cause a vernacular translation of such order and notice, together with a description in the vernacular of such measures and of the estimated cost of carrying them out, to be affixed in some conspicuous place or places in the village or villages in which the tank or its system is situated and in such other villages, if any, as he may think fit and shall cause information to be given of such affixture by beat of drum in the village or in

each of the villages in which such affixture has been made.

6. On or before the date specified in the notice—

Objections  
before  
Collector.

- (i) the landholder or any of the landholders concerned may appear before the Collector and raise any of the following objections, namely:—
  - (a) that he is not the landholder of any estate in which the tank is wholly or partly situated;
  - (b) that the tank does not require repair;
  - (c) that measures other than those proposed would be sufficient for the repair of the tank and its restoration to efficiency; and
  - (d) that by law, local custom or contract any of the measures proposed should be carried out wholly or in part by or at the cost of some other person or persons; and
- (ii) the holder of any land irrigated by the Periyar system or any other person concerned may appear before the Collector and make such representations as he may think fit with regard to the nature of the measures proposed.

7. On the date specified in the notice or on any subsequent date to which he may adjourn the inquiry, the Collector shall hold such inquiry as he thinks fit, and after such inquiry, if any, shall pass a final order confirming, cancelling or modifying the preliminary order, and in the last case, shall cause to be made such modifications in the plan and estimates as he may find necessary.

Inquiry by  
Collector  
and final  
order.

Provided that before modifying the preliminary order to the disadvantage of any party who has not appeared at the inquiry the Collector shall give a reasonable opportunity to such party to appear and show cause why the order should not be modified as proposed:

Provided further that in cases falling under sub-clause (d) of clause (i) of section 6, the Collector shall specify in the final order the extent to which the landholder's liability devolves on the person or persons concerned under the law, local custom or contract and the proportions, if any, in which each of such persons, if more than one, shall bear such liability.

8. (1) If the Collector confirms or modifies the preliminary order, he shall report the matter to the Local Government who may cause to be carried out the measures specified in the order as confirmed or modified by him.

Report by  
Collector to  
Local  
Government  
and order  
by them.

(2) The total cost of carrying out such measures (including the charges on account of establishment and tools and plant at such percentages on the actual cost of the work done as the Local Government may from time to time prescribe) shall be divided between the Local Government and the landholder or landholders and the other persons concerned, if any, in accordance with the following provisions:—

- (a) There shall first be determined the total average area on which, during the three years immediately preceding the year in which the preliminary order was passed, the Local Government have levied water-cum for the use of water issuing from the tank otherwise than through its surplus works, whether at the rate prescribed for the irrigation of dry land with Periyar water or at the rate prescribed for the irrigation of wet land in whole team and zamindari villages with such water.
- (b) Each landholder concerned shall bear such proportion of the said total cost, as one half of the average area of the lands in his estate, on which during the said three years the Local Government have levied water-cum for the use of water so issuing at the rate prescribed for the irrigation with Periyar water of wet lands in whole team and zamindari villages, bears to the total average area as determined under clause (a):

Provided that in cases falling under sub-clause

- (a) of clause (i) of section 6, the liability of the landholder concerned shall, to the extent specified in the Collector's final order under section 7, be borne by the persons and in the proportions specified in such order.
- (c) The Local Government shall bear the balance of the said total cost.

#### *Illustrations.*

- (1) A tank is wholly situated in the estate of a landholder. There is no law, local custom or contract excluding the liability of the landholder. The average

area on which water-cess was levied during the three fasls immediately preceding that in which the preliminary order is passed consists of 50 acres on which water-cess was levied at the rate prescribed for the irrigation of dry lands and 30 acres on which water-cess was levied at the rate prescribed for the irrigation of wet lands in whole inam and zamindari villages. The landholder should bear  $\frac{4 \text{ of } 30}{13+30}$  i.e.,  $\frac{3}{13}$  of the total cost and the Government should bear the remainder, namely,  $\frac{13}{13}$ .

(2) The facts are the same as in Illustration (1), except that a contract is proved by which the ryots holding the wet lands are bound to bear a share of the cost in proportion to their holding. Twenty acres of the wet lands are held by the ryots and the remaining ten by the landholder. The Government have to bear  $\frac{13}{13}$  of the total cost as in Illustration (1), the ryots  $\frac{2}{13}$  and the landholder  $\frac{1}{13}$ .

(3) A tank is situated partly in the estate of landholder A and partly in that of landholder B. There is no law, local custom or contract excluding the liability of either landholder. The average area on which water-cess was levied during the three fasls immediately preceding, consists of 50 acres on which the cess was levied at the rate prescribed for dry lands, 20 acres in the estate of landholder A on which the cess was levied at the rate prescribed for wet lands in whole inam and zamindari villages, and 10 acres in the estate of landholder B on which the cess was levied at the rate prescribed for such wet lands. Landholder A will bear  $\frac{4 \text{ of } 30}{13+30+10}$  or  $\frac{2}{13}$  of the total cost, landholder B will bear  $\frac{4 \text{ of } 10}{13+30+10}$  or  $\frac{1}{13}$  of the total cost and the Government will bear the remainder, namely,  $\frac{13}{13}$ .

(4) A tank is situated in the estates of several landholders. During the three fasls immediately preceding, water-cess has been levied on the whole extent at the rate prescribed for the irrigation of wet lands in whole inam and zamindari villages. There is no law, local custom or contract excluding the liability of any landholder. One-half of the total cost will be borne by the Government and the other half by the several landholders in proportion to the areas lying within

their respective estates on which such water-cess has been levied.

Service of  
notice on  
landholder  
or other  
person to  
pay amount  
of cess due  
from him.

9. After such measures as may have been ordered by the Local Government under section 8 have been carried out, the Collector shall cause to be served upon every landholder or other person concerned, a memorandum showing the total cost of carrying out the same and the portion of such cost for which he is liable under section 8, together with an order directing him to pay the said portion either in a lump sum within a specified time or in specified instalments.

Recovery of  
amount of  
cess.

10. Any amount payable by a landholder or other person under an order under section 9 shall be recoverable as an arrear of land revenue.

Right of  
suit of  
landholder,  
etc., at  
certain  
times.

11. (1) Any landholder aggrieved by an order under section 9 served on him may, within six months from the date on which such order was served, institute a suit in a Civil Court to have such order set aside or modified on any of the following grounds, namely:—

- (a) that he is not the landholder of any estate in which the tank is wholly or partly situated;
- or
- (b) that by law, local custom or contract any of the measures should have been carried out by, or at the cost of, some other person; or
- (c) that the portion of the cost for which he has been made liable has been wrongly calculated:

Provided that a landholder who has been served with a preliminary order under section 5 shall not be entitled to institute a suit on the ground specified in clause (c) or clause (b), unless he has raised such ground in the proceedings before the Collector under section 6 or section 7.

(2) Any person other than a landholder aggrieved by an order under section 9 served on him may, within six months from the date on which such order was served, institute a suit in a Civil Court to have such order set aside or modified on any of the following grounds, namely:—

- (a) that he is not bound to carry out any of the measures by law, local custom or contract; or
- (b) that the portion of the cost for which he has been made liable has been wrongly calculated:

Provided that no such person shall be entitled to institute a suit on the ground specified in clause (c), unless he has raised such ground in the proceedings referred to in section 6 or section 7, having had a reasonable opportunity to do so.

12. Whenever it appears to the Collector that any tank is in such a state of disrepair as to be in imminent danger of breaching, he may by summary order cause to be carried out the measures of repair which in his opinion are necessary to prevent the tank from breaching and shall without delay inform every landholder and other person concerned of the action which he is taking. The provisions of this Act shall thereupon apply as though such repairs had been ordered to be executed by the Local Government under section 8.

13. Every notice, order or other document required by this Act to be served on, or sent to, any person, shall, if practicable, be served personally on such person or, if he cannot be found, the notice, order or document may be left at his usual or last known place of abode with an adult member of his family or an adult servant or agent, or may be sent by registered post, or may be affixed to some conspicuous part of his usual or last known place of abode and shall thereupon be deemed to have been duly served or sent.

14. The Collector or any officer appointed by him in that behalf may, for the purposes of this Act, at any time, enter upon any land and inspect or cause to be inspected any tank situated therein.
